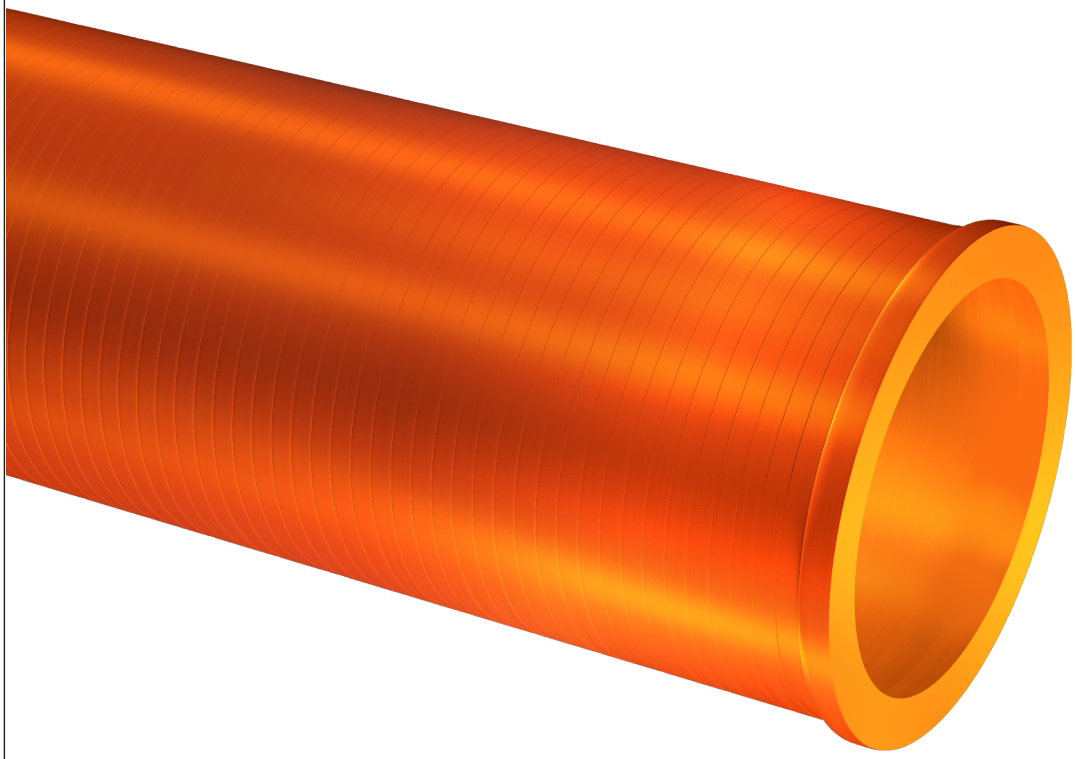
Anilox Cover

Elastic PU sleeve designed for Anilox protection



hardness range 86-90

high longevity

manual handling

mechanical resistance

solvent resistant

Elastic PU sleeve designed for anilox protection against mechanical damages and powder when stored. The special tapered shape and an external handle allows an easy fitting on the anilox without the use of air or other mechanical tools.It is the only protection device that allows to mount on press the anilox covered with its protection that will be removed only when anilox is fixed in printing position, preventing in this way any accidental damage during mounting operation.

specifications

Surface hardness - Tolerance +/- 5 Shore A	90
Cleaning and storage	Use ethyl alcohol with the addition of max. 20% ethyl acetate; store upri
